

Wrrapd Compensation Schedule (internal index)

Each contractor packet uses a **role-only** schedule so one role's PDF never lists another role's pay rules:

| Role | Contractor-facing schedule | |---|---| | WrapStar | [wrapstar-agreements/contractor-compensation-schedule.md](#)
| | JoyRider | [joyrider-agreements/contractor-compensation-schedule.md](#) | | WrapRider |
[wraprider-agreements/contractor-compensation-schedule.md](#) |

Shared dollar logic (ops only -- not copied into applicant PDFs): default **\$30/hr** in Command Center
(DEFAULT_*_HOURLY_CENTS = 3000), ZIP lookup (person override -> exact ZIP -> 3-digit prefix -> role
default), 15-minute accrual, 12-gifts/hour pace on **wrapping hours only**. See
[docs/CONTRACTOR-HOURLY-PAY.md](#).

Effective: 2026-09-20 until superseded in Command Center -> Finance -> Hourly rates.
