

JoyRider Compensation Schedule

Do not paste this file onto wrrapd.com or the public apply landings.

Effective: 2026-09-22 until superseded in Command Center -> Finance -> Hourly rates.

Notice / legal address: 7901 4th Street N, Ste. 300, St. Petersburg, FL 33702-4399

1. Form of pay

Wrrapd pays JoyRiders an **hourly rate**. Wrrapd does **not** pay a per-order piece rate. Dollar amounts are published in Command Center and, once activated, in the JoyRider App. Amounts may differ by **ZIP code** (exact ZIP or 3-digit prefix).

2. ZIP lookup

For the contractor's home / assigned work ZIP: exact ZIP override, else 3-digit prefix override, else the JoyRider default.

3. Work covered (no wrapping pace)

A JoyRider's hourly work includes: pickup of inbound items from a nearby Wrrapd location (for example a PO Box); drop to the wrapping location Wrrapd assigns; pickup of flowers and finished wraps; completeness scan of each wrap barcode for address and flower pairing; and final delivery of gifts and/or flowers.

A wrapping-pace rule does **not** apply to JoyRider hours.

4. Minimum hour and incentives

Each accepted delivery window actually commenced is paid **not less than one (1) hour**.

From time to time -- especially in higher-demand periods -- Wrrapd may publish **discretionary incentive or bonus compensation** (peak-period or completion bonuses). Terms apply only for the stated period.

5. Accrual and pay calendar

Hours accrue under Section 4 for accepted windows actually worked. Wrrapd pays on the then-published payout calendar (direct deposit). Wrrapd may offset or withhold for fraud, failed scans or proof, overpayment, no-show reassignment cost, or amounts the contractor owes Wrrapd.

A late cancel or silent no-show of an accepted window is unpaid.

6. Independent contractor

Contractors are not employees. Wrrapd does not withhold income or payroll taxes except as required by law and may issue Form 1099-NEC.

7. Changes

Wrrapd may update this Schedule prospectively by changing Command Center rates or publishing a revised Schedule in the JoyRider App. Material methodology changes (for example, returning to per-order pay) require notice via the app or email and apply only going forward.
